## About

Hi! I am Christoffer, 23 years old. I have just finished my Master of Science in Interaction and Design, and is now looking for new challenges and opportunities.

My passion for technology and design is expressed both in my studies and in my spare time, where I am driven to create digital solutions that enhance and simplify.

With a strong work ethic, I always strive to deliver high-quality, robust, and scalable code as well as an outstanding user experience.

## Education

Umeå University 2019 - 2024  
M. Sc. - Interaction Technology and Design

The program that "makes you an expert in the interaction between humans and machines."

NTI Gymnasiet Umeå 2016 - 2019  
Technology program orientation  
Information and Media technology

## Work Experience

QA Summer Intern @ Nasdaq 2023  
Evaluated how various frameworks (e.g. **Selenium & Playwright**) for automated E2E-testing could be implemented in one of their products (10 weeks).

Curiosum - Umeå University 2022 - 2023  
Worked as a visitor guide at the Science Center during weekends and evenings. Duties included welcoming visitors, facilitating workshops, and coordinating activities.

## Relevant Experience

I am proficient in **JavaScript**, **CSS**, **HTML**, **TypeScript**, and **React** for frontend development, and I also have experience in backend development using tools like **ASP.NET**, **Entity Framework**, **NodeJS** + **Express**, and **SQL**.

Visit my website [christofferbillman.se](http://christofferbillman.se) to see projects I have worked on both privately and during my time at university.

My programming skills have a solid foundation in **Java** and **C**, and tools like **Git** and **GitHub** are routine for me.
